DRAFT AND HIGH WAGES SAID TO BE RESPONSIBLE FOR CHILDREN LEAVING SCHOOL FOR WORK

(Special Service to Glendale Evening News)

BOSTON, Mass., December 27.—Child labor is on the increase in Massachusetts according to the report of the Child Labor Committee, which is watching the situation closely.

In 1916 approximately 42,268 children, between the ages of 14 and 16 years were given certificates to work. The figures up to November of this year show the number has greatly increased.

The number of adult workers taken by the draft and high wages is given as the chief cause for the number of children leaving school

GLENDALE, CALIFORNIA, THURSDAY, DECEMBER 27, 1917.

WHO AM 1?

I am more powerful than the combined armies of the world.

I have destroyed more men than all the wars

I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege

I steal in the United States alone over \$300,-000,000 each year.

I spare no one and I find my victims among the rich and poor alike, the old and the young; the strong and the weak; widows and orphans know me.

I loom up in such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the running of every railroad

I massacre thousands upon thousands of wage earners every year.

I lurk in unseen places and do most of my work silently. You are warned against me but you heed

I am relentless. I am everywhere; in the home, on the street, in the factory, in the mines, at railroad crossings, and on the sea.

I bring sickness, degradation and death, and yet few seek to avoid me.

I destroy, crush and maim; I give nothing; I

I am your worst enemy.

I AM CARELESSNESS.

ACTIVITIES IN CROWN CITY

An army of carpenters, wheelwrights, cabinet makers, artists and designers are engaged in mysterious and spirited tasks behind doors and gates in many yards, garages and wagon shops in and around Pasadena. They are preparing the framework and superstructure upon which will be fashioned millions of blooming flowers in the floral parade of the twenty-ninth annual Tournament of Roses at Pasadena New Year's Day.

It is the purpose of the Tournament Association and of the special parade committee to make the floral pageant more elaborate and more beautiful than ever before. There will be no stinting in connection with this feature, which has contributed so much to the edification of Tournament crowds in the past and which has spread the fame of Southern California's midwinter climate.

In addition, however, to a floral pageant greater in length, theme and completeness than those of past Tournaments will be a special military division, under the direction of a special military division marshal. Bands in both great sections there will be without

The football teams that are to play the championship match at Pasadena on the afternoon of the Tournament have arrived and are in the thick of final practice. The Mare Island Marines were the first to arrive, on Sunday. The Camp Lewis soldiers arrived on Monday.

As the day for the Tournament approaches, it becomes more apparent that the New Year's Day game is going to be a terrific struggle. The Mare Island Marines have never been beaten. On the other hand, the only game the Camp Lewis eleven has lost was to the Marines by the low score of 13 to 0. That was early in the season and since then the soldiers have scored victory after victory over great teams, and have perfected their team organization.

All is in readiness for this season's great wartime Tournament-the floral pageant in the morning; the championship football match in the afternoon, and the Tournament ball at the Hotel Maryland in the evening.

MORE INFORMATION ABOUT THE INCOME TAX

LOS ANGELES, Cal., Dec. 26, 1917.—It will require a small army of men to take the income tax returns of persons subject to

Collector of Internal Revenue John P. Carter today announced that 23 officers will start from his headquarters on January 1st and on January 2nd every one of them will be on the job in the county assigned to him, to meet the people and help them make out their income tax returns. The officer assigned to this county is due to arrive here on January 2 and to remain until March 1, both dates inclusive. He will have his office in Los Angeles in Room 330 Federal building, where he may be found every day of the dates stated.

"It will be well for every unmarried person whose net income for 1917 is \$1,000 or over, and every married person living with wife or husband whose net income for 1917 is \$2,000 or over, to call on the income tax man and learn whether or not they have any tax to pay," Collector Carter said today. "The person subject to tax who doesn't make return in the time prescribed is going to regret it. The Government will get after all income tax slackers.

"There's hardly a business man, merchant or professional man who won't have to make return of income. Farmers, as a class, will have to pay the tax. The safe thing to do is for every person who had a total income of \$1,000 or \$2,000, as the case may be, and who is not sure about what deductions the law allows him, to play it safe by calling on the income tax man.

"The man in the field will have forms for everybody and persons who expect to call on him need not trouble themselves to write to my office for forms."

And now porkless Saturdays are announced. This will be no new thing to printer folks. They invented the thing, long time since, about the time the pig joined the cow in her flight over the moon.—Alhambra Advocate.

BUSINESS ON SOLID BASIS

Mr. Crane, formerly of Crane & McGee, the Newberry grocery store in Glendale, is now traveling salesman for a big wholesale grocery company in Los Angeles. He was in Glendale Wednesday and in conversation with an Evening News reporter stated that the price chaos resulting from the Government's taking over the regulation of food prices a few weeks ago is now well nigh ended. At that time wholesalers had on hand goods bought a year or even two years before at low prices and held for big advances. These had to be disposed of at the fixed rates of profit established and the result was that many such articles bought long before sold considerably lower than goods of the same nature in much smaller receptacles that had been bought recently. This made rough sledding for the wholesalers and the traveling salesmen, but this condition has now almost disappeared, Mr. Crane says, and prices are on an for the small dealer to buy just as cheaply in one-case lots as the big ices will be held Sundays at 11, El-took part: fellow his 100 or 1000 cases.

A SECOND OPERATION

Ida, eldest daughter of Roger Rees and wife, of 426 South Kenwood, had Them.' her tonsils removed on Wednesday morning. It was the second operation of the kind for her, the first one being incomplete. This made this second operation more serious than usual as deeper cutting was necessary at a dinner and program tomorrow and the little girl was completely at the G. A. R. hall. The dinner will prostrated. Her condition is greatly be served promptly at noon. Needless improved however, and an early recovery is looked for.
